APPLICANT : NIPPON OIL & FATS CO LTD;

INVENTOR : MATSUKURA YOSHIKI;

INT.CL. : C09C 3/10

TITLE : PIGMENT DISPERSING AGENT

ABSTRACT : PURPOSE: To prepare a pigment dispersing agent providing excellent dispersibility and storage stability to a basic pigment by incorporating a specified trimellitic acid deriv.

CONSTITUTION: At least one of trimellitic anhydride deriv. of formula I [wherein R_1 is R_4 -O- (wherein R_4 is a residue of a hydroxyl-terminated polyester monool with a wt. average MW of 1,000-100,000); R_2 is a trimellitic acid residue (a group of formula II); R_3 is H when R_3 is positioned at the terminal and formula III (wherein R_5 is an arom. group or a 5-19C alkyl; R_6 , a group of formula IV, is a 3-17C alkyl or an arom. residue and R_7 , a group of formula V, is a 4-18C alkyl or an arom. group); $n=1-5$; and when $n=1$, it is formula IV] is incorporated to obtain a pigment dispersing agent, which is used when a pigment is dispersed in a coating compsn. in preparing a pigment and an ink and provides excellent dispersibility and storage stability for not only acidic pigments but also basic pigments.
